

Verification Statement

Scope and Objective

Hong Kong Quality Assurance Agency (“HKQAA”) was commissioned by Onewo Inc. (“Onewo”) to conduct an independent verification for its Sustainability Disclosures (the “Selected Disclosures”) stated in its Sustainability Report 2024 (“the Report”). The selected disclosures covered the period from 1st January 2024 to 31st December 2024 and represented the sustainability performance of Onewo.

The objective of this verification is to provide an independent opinion with a limited level of assurance on whether the selected disclosures are prepared in accordance with the following reporting criteria:

- the Environmental, Social and Governance Reporting Guide (“ESG Guide”) set out in Appendix C2 of the Listing Rules of The Stock Exchange of Hong Kong Limited (version effective from 31 December 2023, which remains applicable to annual reports for financial years commencing before 1 January 2025).

The verification team also reviews the disclosures in the Report by making reference to the following disclosure frameworks, as the Report has been prepared with references to:

- the Global Reporting Initiative’s Sustainability Reporting Standards (“GRI Standards”)
- IFRS S2 Climate-related Disclosures (“IFRS S2”)
- The Sustainability Accounting Standards Board (“SASB”) industry-specific standards (“SASB Standards”)

Level of Assurance and Methodology

HKQAA’s verification procedure has been conducted with reference to the International Standard on Assurance Engagements 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information (“ISAE 3000”) issued by the International Auditing and Assurance Standards Board. The evidence gathering process was designed to obtain a limited level of assurance as set out in the ISAE 3000 by using a risk-based approach.

Our verification procedure included, but not limited to:

- Sampling the sustainability information stated in the Report, e.g. claims and performance data for detail verification;
- Verifying the raw data and supporting information of the selected samples of the sustainability information;
- Interviewing responsible personnel; and
- Checking the internal control mechanism

Roles and Responsibilities

Onewo is responsible for the organization’s information system, the development and maintenance of records and reporting procedures in accordance with the system, including the calculation and determination of sustainability information and performance. HKQAA verification team is responsible for providing an independent verification opinion on the selected disclosures provided by Onewo for the reporting period. The verification was based on the verification scope, objectives and criteria as agreed between the Onewo and HKQAA.

Independence

HKQAA did not involve in collecting and calculating data or compiling the reporting contents. Our verification activities were entirely independent and there was no relationship between HKQAA and Onewo that would affect the impartiality of the verification.

Limitation and Exclusion

The following limitations and exclusions were applied to this verification due to the service scope, nature of verification criteria, and characteristics of the verification methodology.

- I. Our verification scope is limited to verifying the transcription/transformation of the raw data or information into the selected disclosures, e.g., Claims and Performance Data stated in the Report. This Sustainability Information may be subject to inherent uncertainty because of incomplete scientific and technical knowledge.
- II. Evaluating the quality of execution and implementation effectiveness of the ESG practices, the appropriateness of the assumptions made, and the estimation techniques applied are outside the scope of our verification.
- III. The verification of raw data or information is based on the use of a sampling approach and reliance on the client's representation. As a result, errors or irregularities may occur and remain undetected.
- IV. Any information outside the established verification period has been excluded.

Conclusion

Based on the evidence obtained and the results of the verification process, it is the opinion of the verification team that, with a limited level of assurance, nothing has come to the team's attention that the Report has not been prepared, in all material respects, in accordance with the ESG Guide set out in Appendix C2 of the Listing Rules of The Stock Exchange of Hong Kong Limited (former version, which remains applicable to annual reports for financial years commencing before 1 January 2025).

In addition, the verification team reviewed the Report with reference to the GRI Standards, IFRS S2 Climate-related Disclosures, SASB Standards and considered that the Report has been prepared by making reference to the contents or parts of the contents of the aforementioned disclosure frameworks.

Signed on behalf of Hong Kong Quality Assurance Agency
